## **FOR IMMEDIATE RELEASE:**

October 4, 2019

### **Construction Schedule Updated for Lincoln Drive Restoration Project: Overnight Lane Closures Resume October 7<sup>th</sup>**

**PHILADELPHIA** – An update to the work schedule for the Lincoln Drive Restoration Project includes the continuation of a series of closures to allow for roadway improvements, announced Streets Commissioner Carlton Williams. The closures and subsequent work are weather permitting.

Beginning Monday October 7<sup>th</sup>, overnight closures between the hours of 9:00 p.m. to 6:00 a.m. are scheduled between Ridge and Wayne Avenues to allow for the resetting of inlets and remaining asphalt work to be conducted. Permanent line striping and guide rail installation to follow. The overnight closures are anticipated for the next three weeks.

Motorists using Lincoln Drive should expect to be detoured between Ridge Avenue and Wayne Avenue (see attached map). The work will involve full, temporary closures of the roadway in both directions. Motorists may use Ridge Avenue or Walnut Lane as alternate routes. Detour routes will be posted for the duration of the closure. Should the work be completed sooner, roadway restrictions will be lifted accordingly.

The temporary closures will allow Streets Department employees and its contractors to safely access areas scheduled for work on the roadway. This work has been scheduled during the evening and into overnight hours to provide the best protection for employees, expedite repairs and minimize the disruption to motorists. For the duration of the work, Streets Department crews will make every effort to minimize the inconvenience to affected motorists. The Streets Department thanks residents in advance for their patience and cooperation.

Scheduled construction for The Lincoln Drive Restoration Project continues through December 2019. The contractor is A.P. Construction. Stay updated on the progress of the Lincoln Drive Restoration Project at <http://www.philadelphiastreet.com/transportation/lincoln-drive-project>.
