## **FOR IMMEDIATE RELEASE:**

April 12, 2019

### **Streets Department Announces Street Improvement for the Week of April 15<sup>th</sup>** *Temporary, Full Street Closures and Parking Restrictions Expected*

**PHILADELPHIA** – Streets Commissioner Carlton Williams announced today that street improvement work will occur in the Northwest section of the city during the week of April 15<sup>th</sup>. The work schedule includes temporary, full street closures and parking restrictions. Weather or special events in the area may alter the work schedule. The contractor will perform street improvement operations on the following streets:

- W. Russell Street from N. Marshall Street to N. 7th Street
- W. Venango Street from N 13th Street to Rising Sun Avenue
- W. Tioga Street from Old York Road to N. Broad Street
- W. Ontario Street from N. Broad Street to Germantown Avenue
- N. Marshall Street from W. Tusculum Street to W. Glenwood Avenue
- W. Tusculum Street from N. Marshall Street to W. Glenwood Avenue

Street improvement work is related to the initial phase of the City's street resurfacing program. Work will be completed in separate phases – milling, adjusting of manhole covers, and resetting of utility boxes – which will take place in separate activities over the course of the week. Operations for the milling work will be performed during the day hours, between 7A.M. and 4P.M. Milling of each street segment is expected to last approximately 1-2 days per street. Work for adjusting of manhole covers and resetting of utility boxes will be scheduled during the day, between the hours of 7A.M. and 4P.M., and is expected to last approximately 1-2 days per street. Schedule of operations for the final asphalt resurfacing on these streets will be announced via a separate press release.

To complete the work, residents should expect parking restrictions. Temporary 'No Parking' signs will be posted in advance of each scheduled activity. Residents are urged to move their cars from the work sites when temporary 'No Parking' signs are posted, so that vehicles are not towed. In the event a car

is towed, please contact your local Police District to determine its location. Motorists are advised to allow extra time when traveling around the work areas.

The work is being completed by James J. Anderson Construction Company, Inc. The project is being financed with 100% City Capital Budget Funds. While the Streets Department will make every effort to minimize disruption to traffic, citizens are urged to plan ahead and use alternative routes when traveling in these areas. The Streets Department thanks citizens in advance for their patience and cooperation as we work to improve city streets.
